

CareerLink Workshops

Working in partnership with the Department of Human Services, the Church at Rock Creek's Care Center develops workshops and curriculum to assist the unemployed and underemployed to achieve self-sufficiency for themselves and their dependants. By addressing practical, social, emotional, and spiritual roadblocks to meaningful employment, CareerLink Workshops encourage development of a life plan and career path as opposed to the "just get a job" mentality.

The methods and curriculum are intended to mobilize the faith-based community in partnership with government and other social agencies who are committed to restoring dignity and hope to the dependant community.

All aspects of the training incorporate biblical principles that align with God-given gifts and talents to move a long term plan for success.

Classes include Resume Preparation, Job Interview Skills, Career Path Planning, Finding Your "Dream Job", Finding Spiritual Strength, Available Local Resources, Personal Financial Budgeting, Job Search Strategies, Overcoming Employment Barriers, Effective Parenting Skills.
